

Stephen Baraik

Data Scientist | Data Engineer
Navi Mumbai, Maharashtra, India
stephenbaraik@gmail.com | +91 91375 54921 | github.com/stephenbaraik | linkedin/stephenbaraik

Technical Skills

Programming: Python, SQL, R, Bash
Machine Learning: Scikit-learn, TensorFlow, PyTorch, Regression, Classification, KNN
Data Engineering: Apache Spark, Hadoop (HDFS, YARN, MapReduce), Airflow, ETL Pipelines
Databases: PostgreSQL, MongoDB, BigQuery
Tools: Pandas, NumPy, Matplotlib, Seaborn, Tableau, Git, Jupyter, Linux/WSL, LaTeX

Experience

Zoc Learnings Jan 2024 – Present
Data Management Specialist Remote

- Designed and automated ETL pipelines integrating multiple Google Sheets into centralized reporting systems using Python and Apps Script.
- Developed a custom CRM system improving lead allocation efficiency and tracking KPIs across exam operations.
- Automated weekly reporting workflows, reducing manual effort and improving data accuracy.

Projects

Bitcoin Data Pipeline 2024
GitHub | Python, SQL, Airflow, Docker, PostgreSQL

- Built end-to-end ETL pipelines to ingest and process real-time Bitcoin market data.
- Enabled trend analysis through structured storage and automated workflows.

Crude Oil Market Analysis & Forecasting 2024
Python, Pandas, NumPy, Matplotlib

- Performed time-series forecasting on Brent crude prices using statistical techniques.
- Generated publication-quality visualizations and analytical reports.

Machine Learning & Big Data Projects 2023 – 2025
KNN, Regression, Classification

- Built and optimized machine learning models using feature engineering and cross-validation.
- Processed large datasets using distributed computing frameworks.

Education

NMIMS University Expected 2026
B.Sc. Data Science CGPA: 2.8/4.00 Relevant Coursework: Machine Learning, Data Warehousing, Statistical Methods, Big Data Analytics, Python Programming

Certifications & Activities

Associate Data Engineer (2025) | Databricks Data Engineer (In Progress)
Table Tennis, Carrom, Ultimate Frisbee
